TECHNICAL SKILLS

Languages: Java

Backend: JavaScript,Node JS,Express JS

Frontend: HTML,CSS,Bootstrap,React JS,Tailwind,Wordpress

Database: MySQL

Tools: Git/GitHub, VS Code, IntelliJ, MangoDB Compass

PROJECTS

Password Manager | *React, Tailwind, MongoDB and ExpressJS*   2024

- Implemented secure user authentication allowing users to sign up, log in, and log out securely with server-side input validation.
- Users can add, delete, update the password.
- Designed a responsive UI with Tailwind CSS for enhanced user experience.
- Developed RESTful APIs to handle CRUD operations for managing passwords.

Spotify Clone | *Html, Css, JavaScript*   2024

- Spotify clone is a web application that replicates the core features and functionalities of the popular music streaming platform.
- I have developed it using HTML, CSS, and JavaScript, the clone offers a seamless and immersive music listening experience within a web browser.
- Interactive elements such as play/pause buttons, volume controls, and track progress bars enhance the user experience and make the clone feel dynamic and engaging.

EXPERIENCE

Yoddha Lab Pvt Ltd | Kathmandu, Nepal   June 2024 - Sept. 2024

- Worked closely with cross-functional teams, including designers, developers, and project managers, to deliver high-quality websites that met client requirements and deadlines.
- Develop and implement new features and functionalities to improve site performance and user engagement.
- Enhanced website functionality and user experience through effective use of HTML, CSS, and JavaScript.

ACHIEVEMENTS

- Solved 100+ DSA problems on different coding platforms.
